Fremont Ross Basketball

"Home of the Purple Pit"

Mark Gedeon, Head Coach

1100 North Street
Fremont, Ohio 43420

Phone: (419) 332-4844
Fax: (419) 334-6770

What is 86,400??

This is a question that every player in our program should expect to hear from the number on the back of our workout shirt. What would 86,400 have to do with Fremont Ross Basketball and the success that we should expect to have both on and off the floor? Believe it or not, 86,400 has everything to do with our team and individual success. 86,400 is the number of seconds in each day (60 seconds x 60 minutes x 24 hours). How we go about each day in the use of our time will help dictate the amount of success we will have accomplished together. Let me give you two analogies from the book *Coach Wooden 1-on-1*.

Jay Carty, a former player of the legendary UCLA basketball coach John Wooden, refers to 86,400 as the amount of money credited to your bank account every day. At the end of each day, whatever you failed to spend, you lost. Given that situation, we would try our hardest to spend every bit of that money each day! This special account we all have in the form of time. Each day we are given an opportunity to make the most of our time to be the best student, athlete, worker, friend, and family member we can be. If we fail to use our time wisely, then it is time lost forever.

John Wooden is the most successful college basketball coach with 10 NCAA championships over a 12 year period. Coach Wooden is also one of the best teachers of the game of life as well. In this book, Coach Wooden speaks of the following when talking about time.

"Time lost is time lost. It's gone forever. Some people tell themselves that they will work twice as hard tomorrow to make up for what they did not do today. People should always do their best. If they can work twice as hard tomorrow, then they should have also worked twice as hard today. That would have been their best. Catching up leaves no room for them to do their best tomorrow. People with the philosophy of putting off and then working twice as hard cheat themselves."

"Most young people don't know how to work hard, and so many are satisfied with just getting by. I wouldn't settle for this second-best attitude from my players. I'd ask them "If you do not have the time to do it right the first time, when will you find the time to do it over?"

How are you going to spend your 86,400 seconds today? How will you reach your goals and dreams during this time? If we really want to be successful on and off the floor we must plan on making the most of our time to strive to be the best in everything we set our sights on. 86,400 is a pretty big number and gives us a lot of opportunities to do great things. I look forward to using some of it to work with you and see you develop this year as a member of the Fremont Ross Basketball program. I wish you all the best this season.

Sincerely,

Coach Gedeon
